Response to Amendment

Allowable Subject Matter

Claims 32-88 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record neither teaches or suggests a heart support structure for treating a heart with both viable and non-viable heart tissue such that a plurality of support links are assembled across both viable and non-viable heart tissue. The support links are comprised of both regular and peripheral support links such that all types of support links are configured for attachment to either regular or peripheral support links. And wherein at least one least one peripheral link is configured to move coincident with the contraction and dilation of the region of viable heart tissue and wherein said support links are configured to cause a corresponding movement of the region of less viable or non-viable heart tissue in response to movement of said peripheral links.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
